USOSWeb (WNE) UW

(but not only) – **some basic information for
new students (2023/24)**

Mateusz Kopyt

Dean's Representative for the USOS System

(University Study-Oriented System or Student Management Information System)

What we are going to talk about?

- USOSWeb - general idea
- USOSWeb – registration for courses
- Central registration at UW – languages, physical education, OGUN (general courses)
- Courses linking to your programme
- Instalment plan selection
- University email account for students and WNE Computer Lab account

USOSWeb general information

*Even more
important
currently!!!*

- USOSWeb is a system that in many cases provides access to information that used to be available in the Students' Office: courses plan, assessment / grades, information about courses, lecturers, student exchange programmes etc.
- USOSWeb in many cases allows to avoid the need for coming to Students' Office: as above + scholarships issues, surveys, payments, applications, student exchange, dormitories etc.

Registration for Classes

REGISTRATION FOR CLASSES

Registration in the USOS system is obligatory for all students. Students who do not register in the USOS system will not be able to participate in the classes.

Schedules for registration in the spring semester 2022/2023

- FIIA – 2 nd and 3 rd year, IEC, QF, DSBA – 2 nd year
- FIIA – 1 st year, IEC, QF, DSBA – 1 st year

Students are reminded that failure to register will cause their absence from the course participants list, and from the examination sheet. This poses the risk of course retake, even if you will have participated and fulfilled contentwise course requirements. Smooth run of the administrative work demands your cooperation. Below you may find some useful manuals:

Linking courses to your programme

- The idea:

To credit current study term and enrolling for a new one, each student should indicate which courses are to be taken into consideration as part of the study curriculum for which he/she has obtained credit in a given study term, and which are to be regarded as extracurricular or for another programme.

- From 2015/16 linking courses are obligatory during registration for courses
 - **If a student studies at one programme links are automatically added !!!**
 - **One may set default programme to be linked to your courses !**
- The need to verify linkage for the study term prior to settlement (finishing a year).

Linkage

Each completed course (most commonly, failed courses also) gets finally **linked** with one specific study stage. If you won't link the course by yourself, student's office will do it for you (foreign students usually don't have to do it themselves).

On the course list below **you won't find** external courses or any other courses related to individual decisions made in reference to your study program - links to such courses might be edited by student's office only.

To link many courses with a specific study program or stage you should first choose courses and then click "link selected". All selected courses should be from the same cycle.

unit and whether the account is in the same currency as the assigned payment.

You may have numerous virtual accounts. Each payment should be made to appropriate account. In case the uncleared debts site shows more than one virtual account number for the amount due you should choose a proper one according to the description in the table. In case of any doubts please contact the office of the Dean of the organization unit on whose behalf the payment should be made.

Do not disclose or make available your virtual account number to other users, as each user has got a different account number to which his/her payments should be made.
