Graduate / Undergraduate Paid Internship – Economics Students only
Full time
Warsaw

Vacancysoft is the UK's leading provider of labour market data and analytics. We provide high-grade lead generation, client intelligence, and market analysis solutions for the UK's top recruitment industry firms and others.

Initially set up in 2006 as a bespoke market intelligence service, Vacancysoft since then evolved into the leading data analytics portal in the UK and is regularly featured in business media such as the FT, Reuters, Bloomberg and others. Our analysis of economic trends incorporating our proprietary data provides a unique perspective on the market.

Due to increased client demand, we are therefore seeking to recruit an entry level analyst to be part of a team responsible for our industry reporting. This is a perfect first job for someone who is or has studied Economics at University, and is interested in building a career as an Analyst of Labour Markets.
You will be reporting to and trained by the CEO personally.

Duties & Responsibilities:

- Learning our proprietary data structures and how they relate to the Labour Market
- Creating data tables relevant to the reports being published and prepare the visualisation for the designer
- Drafting long form (1200 words) reports against the data, using a PESTLE framework
- Also creating short form insights (200 words) for social media
- Perform other duties as appropriate

Minimum requirements:

- Excellent English. Fluency is a prerequisite.
- A university degree in Economics
- Familiar with Excel, Google Sheets, SharePoint
- Excellent organizational skills;
- Willingness to continuously learn and develop skills.

What we offer:

- Hybrid work, Part time available – Work around your studies
- Opportunity to grow, learn and improve your skills
- Umowa ZLECENIE – task based contract – payment on basis of completed tasks
- Visa Sponsorship an option

Send your CV in ENGLISH. Should your CV be interesting we will be in touch and arrange an online interview.
