USOSWeb general information

*Become more
and more
important !!!*

- USOSWeb is a system that in many cases provides access to information that used to be available in the Students' Office (at the Faculty): courses plan, assessment / grades, rankings, information about courses, lecturers, student exchange programmes etc.
- USOSWeb in many cases allows to avoid the need for coming to Students' Office: as above + oaths and clauses, registrations, payments, scholarships issues, surveys, applications, student exchange, dormitories etc.

REGISTRATION FOR CLASSES

First round of registration

1st year students: Online registration for classes (at the Faculty of Economic Sciences) for 1st year students will start on September 25th. Detailed schedule is available below.

Transfer of token registrations to Central USOSweb

From **22 April 2025** all token registrations (PHYSICAL EDUCATION, LANGUAGE COURSES, OGUNs) will be available only **in the Central USOSweb service** (<https://usosweb.uw.edu.pl/>). The current token registration service has been deactivated. Token registrations will not be available in the WNE USOSweb, while registrations for courses run by WNE (for WNE study programmes) will be in the WNE's USOSweb as before.

During the pilotage round of token registrations in USOSweb, which will take place from **March 31, 2025, 9:00 p.m. to April 6, 2025, 11:59 p.m.**, you can report comments and technical problems to zetonowe.pomoc@uw.edu.pl

A short user manual describing the token registration module in the Central USOSweb system is available [here](#).

Registration schedule - Fall semester AY 2024/2025

- Fall (Winter) semester AY 2025/2026 FIIA – 2 nd and 3 rd year, IEC, QF, DSBA – 2 nd year
- FIIA – 1 st year, DSBA, IEC, QF – 1 st year

Registration in the USOS system is obligatory for all students. Students who do not register in the USOS system will not be able to participate in the classes.

Students are reminded that failure to register will cause their absence from the course participants list, and from the examination sheet. This poses the risk of course retake, even if you will have participated and fulfilled contentwise course requirements. Smooth run of the administrative work demands your cooperation. STUDENT'S SECTION → REGISTRATIONS (*Registration for courses or Direct for groups*)

USOSweb – the oath, clauses

- A student 'is created' 😊 at the moment of matriculation and signing/taking the oath (generally from 1 October).
- A student at the University of Warsaw signs:
 - the RODO (General Data Protection Regulation) clause (cannot be rejected)
 - the oath (can be rejected, but... **there are significant consequences**)
 - Other clauses ... (sometimes)
- **Not signing the clause or rejection of the oath will result in access to USOSweb being denied.**

The screenshot shows a web interface for 'Moje Aplikacje' (My Applications) in Polish. The page title is 'Masz oczekujące oświadczenie' (You have a pending declaration). Below the title, it states: 'Musisz złożyć deklarację dotyczącą poniższego oświadczenia, zanim uzyskasz dostęp do aplikacji USOS.' (You must submit a declaration regarding the following statement before you can access the USOS application). The main section is titled 'Ślubowanie' (Oath) and contains a block of Latin placeholder text. At the bottom, there are two buttons: 'ZAAKCEPTUJ' (Accept) in green and 'ODRZUĆ' (Reject) in red.

Language Placement Tests

Before registering for an **English, French, Spanish, German, Russian, Italian** language class, you are required to take an online placement test, which is available on webpage [kampus](#). The test result will help you choose the most suitable level (A1, A2, B1, B2, C1, C2, according to the Common European Framework of Reference). If you encounter any issues accessing the placement test, please report them to pomoc-ckc@uw.edu.pl

Due to data migration, it is recommended to take the placement test two days before the start of registration for language courses.

Linking courses to your programme

- The idea:

To credit current study term and to enrol for a new one, each student should indicate which courses are to be taken into consideration as part of the study curriculum for which he/she has obtained credit in a given study term, and which are to be regarded as extracurricular or for another programme.

- From 2015/16 linking courses are obligatory during registration for courses
 - **If a student studies in one programme, links are automatically added !!!**
 - **One may set default programme to be linked to your courses !**
- The need to verify linkage for the study term prior to settlement (finishing a year of studies).

Linkage

Information: Each completed course (most commonly, failed courses also) gets finally **linked** with one specific study stage. If you don't link the course by yourself, student's office will do it for you (foreign students usually don't have to do it themselves).

On the course list below **you won't find** external courses or any other courses related to individual decisions made in reference to your study program - links to such courses might be edited by student's office only.
