(but not only) – some basic information for new students (2024/25)

Mateusz Kopyt

Dean's Representative for the USOS System

(University Study-Oriented System or Student Management Information System)

What we are going to talk about?

- USOSWeb - general idea

- USOSWeb – registration for courses

- Central registration at UW – languages, physical education, OGUN (general courses)

- Courses linking to your programme

- Tuition fee: Instalment plan selection

- University email account for students and WNE Computer Lab account

USOSWeb general information

Become more and more important !!!

- USOSWeb is a system that in many cases provides access to information that used to be available in the Students' Office: **courses plan**, assessment / grades, information about courses, lecturers, student exchange programmes etc.

- USOSWeb in many cases allows to avoid the need for coming to Students' Office: as above + scholarships issues, surveys, payments, applications, student exchange, dormitories etc.

Linking courses to your programme

- The idea:

To credit current _study term_ and enrolling for a new one, each student should indicate which courses are to be taken into consideration as part of the _study curriculum_ for which he/she has obtained credit in a given study term, and which are to be regarded as extracurricular or for another programme.

- From 2015/16 linking courses are obligatory during registration for courses
  - **If a student studies at <u>one programme</u> links are <u>automatically</u> added !!!**
  - **One may set default programme to be linked to your courses !**
- The need to <u>verify</u> linkage for the study term prior to settlement (finishing a year).
