

1st WNE UW STUDENTS' CONFERENCE

Dear Sirs and Madams,

In June this year at the Faculty of Economic Sciences the first edition of WNE Students' Conference will be held. The event is organized by the faculty authorities and Economic Strategy Society and the aim of it is to enable students to present the results of scientific research conducted by them and the projects prepared during studies. We hope that the conference will provide an opportunity to exchange views and opinions between students and FES workers, as well as to gain experience and make the first move towards scientific career.

The conference will include presentations of projects prepared by students and PhD students in the form of paper or poster. The projects should be supervised by the faculty workers and, therefore, our offer is directed primarily to the participants of MA and BA seminars. The presentations will be divided into thematic sections, each of which involving discussions with audience and introductory lectures. Every participant will obtain a certificate of participation in the conference. The authors of the best projects may expect accompanying papers of academic workers, the opportunity to publish their work in the journal Economics, as well as the win in the competition for the best project. The applications will be accepted in the second half of May and the conference will take place on 23 June 2016.

We believe that our offer will appear attractive both for the students, PhD students and workers. Should you have any comments or suggestions concerning the conference, please contact the organizers. We would also appreciate it if you could help us promote the event, in particular by informing the participants of your classes about it.

Best regards
Organizers of the 1st WNE UW Students' Conference
